25X1A9a

This report continues to be our next priority item. The review in the branch has been delayed because [REDACTED] has been involved in the editorial phases of his own project.

- ✓ b. 39.2384, Soviet Military Expenditures, 1947-63

25X1A9a

This report has been reviewed in the division and the internal coordination and clean-up phases are nearing completion. It is hoped to get this report into the hands of the military services for comment in short order. However, certain policy decisions with respect to it must be reached first.

- ✓ c. 39.2760, Value of Output of Soviet Land Armaments, 1950-59

25X1A9a

This project has been reviewed with respect to its current status. It would seem that the project is in trouble; a further extensive review of the situation will be held with the responsible analyst in the near future.

- ✓ d. 39.2765, Soviet Air Forces Personnel Pay

25X1A9a

The initial draft of the first section of the report is complete and organization of data for the second section is progressing satisfactorily. The project is essentially on schedule.

- ✓ e. 39.2766, Maintenance and Operation Expense for Soviet Military Motor Vehicles and Armored Vehicles

25X1A9a

A review of material gathered in research resulted in some realignment of this project. Research is practically complete and analysis and organization of data are underway. Some writing has been done on the initial sections of the paper.
